(1) **Eliminado: Clave Única de Registro de Población.**

Fundamentación: artículos 3 fracciones IX, XII, 122, 132, 143 fracción I y 149 de la Ley de Transparencia y Acceso a la Información Pública del Estado de México y Municipios así como los artículos 2º, 4º fracciones II y XI y 40 de la Ley de Protección de Datos Personales en Posesión de Sujetos Obligados del Estado de México y Municipios.

Motivación: El Registro Nacional de Población tiene como finalidad registrar a cada una de las personas que integran la población del país, con los datos que permitan certificar y acreditar fehacientemente su identidad. Al incorporar a una persona en el Registro Nacional de Población, se le asignará una clave que se denominará Clave Única de Registro de Población. Al integrarse la CURP por datos que únicamente le atañen a un particular como son su fecha de nacimiento, su nombre y apellidos, y lugar de nacimiento, es información que lo distingue plenamente del resto de los habitantes. En ese sentido, la CURP se considera información clasificada como confidencial, atendiendo al acuerdo de clasificación UAEM/CI/CIC/0021/18.

(2) **Eliminado: Registro Federal de Contribuyentes RFC.**

Fundamentación: artículos 3 fracciones IX, XII, 122, 132, 143 fracción I y 149 de la Ley de Transparencia y Acceso a la Información Pública del Estado de México y Municipios así como los artículos 2º, 4º fracciones II y XI y 40 de la Ley de Protección de Datos Personales en Posesión de Sujetos Obligados del Estado de México y Municipios.

Motivación: Para su obtención es necesario previamente acreditar con datos fehacientes el nombre de la persona, su fecha de nacimiento, entre otros; lo anterior a través de documentos oficiales como el pasaporte y el acta de nacimiento. La cédula del registro federal de contribuyentes es el comprobante que otorga la Secretaría de Hacienda y Crédito Público a través del Servicio de Administración Tributaria a las personas físicas y morales que se encuentran inscritas como contribuyentes en nuestro país. Asimismo el código de respuesta rápida o QR, por sus siglas en inglés, es un módulo de almacenamiento de datos por medio de puntos o código de barra bidimensional, el cual permite leer los datos codificados por medio de un software de libre uso instalado en cualquier equipo de cómputo, tableta o smartphone. A partir del año 2011 a los contribuyentes que optan por emitir comprobantes impresos en papel, se les asigna un código de barra bidimensional con la finalidad de que aquellos clientes que tengan en su poder algún comprobante fiscal puedan verificar entre otros datos el RFC del contribuyente. La homoclave del registro federal de contribuyentes, la cual es única e irrepetible, vinculada al nombre de su titular, permite identificar la edad de la persona, y determina justamente la identificación de dicha persona para efectos fiscales. Por lo tanto se considera información clasificada como confidencial, atendiendo al acuerdo de clasificación UAEM/CI/CIC/0021/18.

(3) **Eliminado: Nombre**

Fundamentación: artículos 3 fracciones IX, XII, 122, 132, 143 fracción I y 149 de la Ley de Transparencia y Acceso a la Información Pública del Estado de México y Municipios así como los artículos 2º, 4º fracciones II y XI y 40 de la Ley de Protección de Datos Personales en Posesión de Sujetos Obligados del Estado de México y Municipios.

Motivación: En lo relativo al nombre es prudente considerar que este otorga identidad e individualidad a la persona, sobre la cual se debe tener respeto y protección. Los datos que identifican a la persona, como los que se asocian a su identidad, son propiedad de cada individuo. Por lo tanto se considera información clasificada como confidencial, atendiendo al acuerdo de clasificación UAEM/CI/CIC/0021/18.

- C. Que la documentación que pone a disposición la Dirección de Programación y Control Presupuestal de la UAEM contiene:
- **Nombre de menores de edad**
 - **Clave Única de Registro de Población**

En relación a lo anterior es pertinente analizar la información referida como a continuación se detalla:

NOMBRE

En lo relativo al nombre es prudente considerar que este otorga identidad e individualidad a la persona, sobre la cual se debe tener respeto y protección. Los datos que identifican a la persona, como los que se asocian a su identidad, son propiedad de cada individuo.

CLAVE ÚNICA DE REGISTRO DE POBLACIÓN

En lo que concierne a la Clave Única de Registro de Población deben señalarse algunas precisiones, la Ley General de Población establece lo siguiente:

"Artículo 86: El Registro Nacional de Población tiene como finalidad registrar a cada una de las personas que integran la población del país, con los datos que permitan certificar y acreditar fehacientemente su identidad.

Artículo 91: Al incorporar a una persona en el Registro Nacional de Población, se le asignará una clave que se denominará Clave Única de Registro de Población. Esta servirá para registrarla e identificarla en forma individual."

Por su parte, el Reglamento Interior de la Secretaría de Gobernación dispone:

"Artículo 23. La Dirección General del Registro Nacional de Población e Identificación Personal tendrá las siguientes atribuciones:

III. Asignar la Clave Única de Registro de Población a todas las personas domiciliadas en el territorio nacional, así como a los mexicanos domiciliados en el extranjero..."

De la estructura del propio documento se advierte que los datos a partir de los cuales se asigna la CURP son:

- El nombre (es) y apellido(s)
- Fecha de nacimiento
- Lugar de nacimiento
- Sexo
- Una homoclave y un dígito verificador que son asignados de manera única e individual por la Secretaría de Gobernación.

Al integrarse la CURP por datos que únicamente le atañen a un particular como son su fecha de nacimiento, su nombre y apellidos, y lugar de nacimiento, es información que lo distingue plenamente del resto de los habitantes.

Derivado de lo anterior, los integrantes del Comité de Transparencia emiten el siguiente:

ACUERDO
